## DIRECTORS OF ASSOCIATION HEAR INTERESTING REPORT FROM SUPER

Last Three Months Have Seen Marked Advance in All Departments

The directors of the Young Men's Christian Association held a meeting at noon today in the office of the general secretary and, beside accepting his report covering the work which the association has accomplished during the past three months, voted in 28 new members. Secretaries Paul Super and Lloyd R. Kilham were appointed a committee to follow up on the matter of establishing Y. M. C. A. work among the Koreans of Honolulu. The position of assistant treasurer was created, F. D. Lowrey being appointed to fill it.

Mr. Super's report follows: In a letter to James G. Cannon, president of the Fourth National Bank of New York City, Fred B. Smith said of the Honolulu Young Men's Christian Association, after a study of the local work: "It is the equal of any association in any city of that size I have ever visited, if indeed it does not excel anything in any city that size." As Mr. Smith is senior secretary of the religious work department of the international committee of North America, this opinion has weight.

I wish to submit merely a list and brief description of the activities of the association during the last three months. This list will tell its own story of service to young men and boys, and make its own point.

First let me show a comparison of the association at the close of 1913 and at the close of 1912. Notice the small increase in money expended and the large increase in results secured. The number of employed officers was the same each year.

**PAUL ISENBERG SAYS FREE SUGAR NEVER WILL COME**

Free sugar has no terror for Paul Isenberg, for the reason that he is convinced that it will never happen. Mr. Isenberg returned in the Sierra Tuesday after an absence of nine months spent mostly in Germany and England. He found strong financial depression in Europe but latterly there were signs that the cloud was lifting.

"I think the back of the financial crisis is broken," he said this morning, "and that things in general look very much better."

"I further believe that we are not going to have free sugar, from talks that I have had with very prominent men in New York. Besides, I think prices of sugar will be very much better before long. Porto Rico is just now flooding the market with sugar but that cause of depression will soon have an end. I am very optimistic about it."

"Conditions in the West appear very much better than in the East."

"With reference to my coal investment in Canada everything is in fine shape, but of course the financial crisis has so far prevented development of the property. We are simply waiting for things to get better. Financial men and engineers who have looked into the proposition consider it one of the finest things ever offered on the London market. The coal assays nearly as good as Pennsylvania anthracite and there will be no trouble about a market for it."

"I think that President Wilson has made a mighty good selection in Governor Tamm, and that it is the duty of the Hawaiian people to stand back of him and give him all the assistance they possibly can."

The currency bill is immensely popular in the states. Everybody likes it, although some say it is 80 per cent good and 20 per cent defective."

## SOLDIER BALL PLAYERS WILL REPLACE KAUAL

Kaual will not be represented in the inter-island baseball series at Carnival time.

This news was transmitted to the baseball committee of the Carnival association this morning by Chairman A. L. Castle, who said that he had just received a letter from C. A. Rice of Kaual, stating that it would be impossible for him to get together a baseball aggregation, and suggesting a substitute organizer. Castle said that it was too late to dick with a new organization, and that, as the All-Service team here was well organized, and deserved representation in the coming series, it would be substituted for the Kaual team. This action is in accord with the desires of local fans, who believe that the service should be represented and who are also of the opinion that the new department headquarters team will be a strong factor in the championship race.

It is believed that the All-Chinese team will agree to play a couple of exhibition games during the carnival games, with the understanding that a benefit game for the team's maintenance fund will be backed by the Ad Club before the team's departure on its next barnstorming tour. At any rate, this has been intimated and the Ad Club will entertain the members of the team at a dinner in order that ways and means may be discussed.

According to the plans outlined by Chairman Castle, the baseball championship series should be a hummer. Thirteen games in all are scheduled, but the exact time and place of each contest is still to be arranged, and a meeting for that purpose will be held at Castle's office tomorrow morning at 11:30. Two dates are held open for the Chinese, these being February 21 and 22, and the tentative schedule calls for a game between the Chinese and their old rivals, the Portuguese Athletic Club, on the first named date.

The opponents of the Orientals for the second date will probably be left to the popular vote of the local fans. The baseball schedule will extend from February 14 to February 23, inclusive.

Castle, who is also engineering the tennis feature of the carnival, stated that Johnston and Potrell would probably arrive here from Manila on February 7, remaining until the 17th of that month. Four days of exhibition tennis are planned at the Pacific grounds, the coast cracks playing against each other on one day; each playing singles against a local man on another, and playing as a team against two local teams on the other two vacant tennis dates.

The sport program for the carnival is rapidly being whipped into shape by Director-General Dougherty, and, according to present indications, the time will be well filled. In fact, the carnival management will be hard put to stage all the attractions offered for the week.

The ball players from Maui and Hawaii will be looked after at the Walkiki Inn, very satisfactory arrangements for their board and lodging there having been made by Jack Seely.

The Filipino section was turned over to O. A. Steven, while Manuel Peter, George Yamada and Charles Gilliland were elected to a sub-committee on the bicycle section. Ed Towse and O. A. **Morning on 'CHANGE**

The market livened up slightly this morning, a few sales being made between boards and during the session. Only one new price, however, was made, that being in McBryde, where a loss of three-quarters of a point was shown. One hundred shares of it changed hands at 1.55. H. B. & M. sold at 20.25. Pines at 37.

The following notice was posted by the Peopkeo Sugar Company, which came as a very pleasant surprise to the "street," and which shows that the optimism expressed lately is not unfounded:
